

## **Word of Life Church Prayer Confession**

We do what it takes to rise up together and take our stand because God You are with us and Your Glory and anointing is upon this ministry. The world is in darkness and needs us to shine Your light to dispel this darkness and to lead them to Jesus. People will experience the anointing as they come to our ministry and look around and know that only a great God could have done this. People from all over the world flock to our ministry/classes and great men and women are drawn to the excellence in which we work and the excellence of our teachings. They fly in from everywhere to behold the work that You are doing through us. We look around and see more and more people coming, bringing their children, assembling around us, wanting to stay because of the anointing and because they know they need what we have.

People from all over the world beg to come to our ministry and see firsthand what the Lord has done. The hearts of the people that cry out to know God come to know Jesus through our teaching. They distribute our products/classes worldwide because people love them. Our teachings go into countries that opposed Christianity and hide the Word in them as they teach people Your ways, Father, and Your Word. People around the world are working for us, distributing our products. Even leaders worldwide believe in our mission and aid in our ability to distribute in their countries to build up their people.

Though we are starting out of brokenness, God please have mercy on us and bless us. We see what You, God, have done for us and we are radiantly glowing with Your glory and our hearts throb and swell with delight as we see You restore people and increase this ministry. Those who have ears to hear will hear, for those who do not, we still hear their cry and reach out to them. But no one is able to oppose us. Those who try will fall for our sakes. No weapon that is formed against us shall ever prosper.

Our ministry meeting places are wondrous and beautiful places where people are drawn in to the goodness of God and they are filled with believers experiencing the anointing of God. All the resources we need are brought to us and people and companies give to us just to be associated with us. We have people working on our behalf to get the best raw materials, products and the best deals. We have the best supplies with which to make our products. We have a great supply of the best products and marketing to make our outreach the best in the land. Our internet service and 800 lines are open 24 hrs a day receiving prayer requests and orders. For the world is crying out for the answers we have. We have plenty of faithful workers to pray for people and to fill and ship out the orders. Great men and women buy from us and want to distribute for us. And God, You bless the work of our hands. We ask that You receive our work as an offering to You and prosper us and dwell with us.

Jehovah Gmolah, You are our vindicator. You draw in the descendants of those who have oppressed us and they come bringing their descendants and they are humbled by knowing

that God is truly with us. And we are now called the City of Adonai, the people of the Holy One. This ministry is full of those who have been hated for our faith; those who were abandoned for our beliefs, those forsaken, judged and rejected. But God, You, Yourself turn it all around for us. We will bring joy to many generations. Young and old admire our tenacity to push through until we receive the breakthrough. We are blessed by many nations receiving the finest provisions. Great and knowledgeable leaders come to advise us and help us grow. Because Jesus is our Savior and the head of our ministry is the Mighty One who keeps covenant.

Though we may start small, we are increased and our teachings and production grow and get better and better. And the peace of God keeps our minds and hearts through the changes and governs all of our decisions. Righteousness keeps us moving forward and always striving to represent You, God, in excellence through our teaching, products and service. Here in this ministry we dwell together in unity and the blessing is commanded on us. We are not being mistreated any more. We will not see destruction. We are restored and walled in by the salvation of the Lord. All our workers know Jesus, work joyously and praise You, God, for Your goodness. No one has to try to promote themselves because we all humble ourselves under Your mighty hand, God, and You raise us up in due season as we learn and grow and discover how to use our gifts to promote the vision. And we protect each other; only speak God's truth about and to each other and care for one another with agape love. This is the best place in the world to work. Everyone's ideas are important and considered as we stay within the God given vision. El Shaddai, give us creative ideas and witty inventions.

We are not bound by the world's standards because our God is with us and Jesus is for us. We are not bound by time for we walk in the Spirit and do supernatural exploits with our God. Our mourning has ended. All our people are righteous, good and faithful workers. God blesses the work of our hands. As we give into the ministry of our talents and gifts we receive plenteous compensation and are taught by our God how to find creative solutions and create new answers. God, teach us every thing we need to know to do the job and elevate those who grow in Christ. And God be well pleased with us as we serve You and exercise our faith.

Though we start small with those of like visions working together toward the God given vision by putting our gifts and talents together we grow and become mighty. Word of Life is a place we can bring others into to teach them the ways of God. And we dwell together helping and teaching each other, drawing out each ones unique abilities and prospering together by divine unity. God, do for us what You promised our father Abraham. Make a great nation of us, bless us, make our name great, and make us to be a blessing. King of kings, when the right time comes, quickly bring it about. It is written, we agree and proclaim it, so let it be done.

In Jesus' mighty name. Amen.
